Elvirose

Summary

B.Tech Computer Science graduate at VJCET with a strong interest in coding, Artificial Intelligence, and software development. Built projects such as InterroSense and Energeon during the academic journey, gaining hands-on experience in problem-solving, AI integration, and modern technologies. Adaptable and quick to learn new environments, with strengths in creative thinking, communication, and teamwork. Completed an AI/ML internship at InternPe, which helped improve technical and practical development skills. Passionate about building innovative AI-based solutions that can create real-world impact.

Skills

Programming Languages: Python, C, HTML
Databases: MySQL, MongoDB
Tools: Visual Studio Code, MS Office
Foundational Knowledge: Programming Basics, Web Development

Internship

AI/ML Intern - InternPe

- Gained practical exposure to data analysis and basic machine learning workflows using Python.
- Worked with datasets to perform preprocessing, visualization, and simple model evaluation.
- Used common Python libraries to understand patterns and insights in data.

Projects

InterroSense

GitHub

Scenario-Based AI-Assisted Interrogation System

- Integrated facial expression analysis, voice stress detection, and linguistic evaluation for multimodal interrogation analysis.
- Developed AI-generated adaptive questioning that dynamically creates interrogation questions based on scenario inputs.
- Implemented timestamp-based interrogation tracking and automated behavioral report generation for investigators.

Energeon

GitHub

Household Electricity Usage Estimator and Optimizer

- Developed budget prediction and optimization features to suggest efficient electricity usage patterns.
- Designed interactive graphs and visualization dashboards for monthly usage and target bill comparison.
- Implemented automated email reporting system with personalized energy-saving suggestions.

Education

Bachelor of Technology in Computer Science and Engineering

Oct 2022 – Jun 2026

Viswajyothi College of Engineering and Technology

CGPA: 8.54

CBSE AISSCE (Computer Science)

Jul 2020 – Jul 2022

Carmel CMI Public School, Vazhakulam

Percentage: 81.2%
